 - Hoppers
 - Gates
 - Tank Linings (oil, water & chemical)
 - Swimming / Paddling pool linings
 - Spillways
 - Fences
 - Hoses
 - Caravans
 - Drip trays
 - Garden Equipment
 - Boats
 - Ducting
- the list is endless.

Powerful Permanent Epoxy Putty

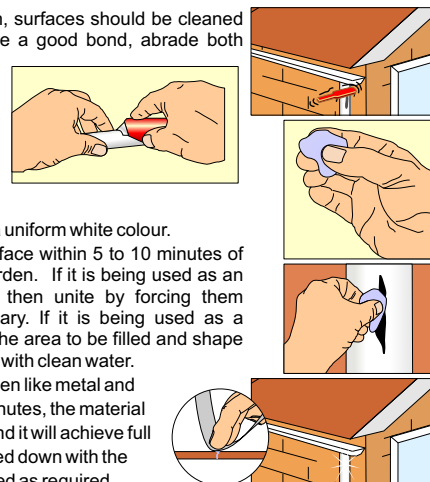

**SETS UNDER WATER
MARINE APPLICATIONS**
Hull sections, Decking, Mouldings etc.

AUTOMOTIVE APPLICATIONS
Body panels, Bumpers, and to fabricate and / or mould unavailable replacement body and trim parts and sections.

AGRICULTURAL APPLICATIONS
Farm Machinery, Barns, Silos, Guttering, Dairy Equipment, Agricultural Parts, etc.

HOME & OFFICE
Guttering, Water Tanks, Pipes, Wood Repair and Filler etc.

1. In order to achieve optimum adhesion, surfaces should be cleaned free of grease, dirt, paint etc. To ensure a good bond, abrade both surfaces followed by additional cleaning.
2. Twist or cut off the required amount of Putty.
3. If the material is cold, mixing it may be difficult, and warming it to room temperature is advised. When warm enough, mix and knead the putty with the fingers for at least one minute or until it is a uniform white colour.
4. Press the putty onto the prepared surface within 5 to 10 minutes of mixing, after which time it will start to harden. If it is being used as an adhesive, apply to both surfaces and then unite by forcing them together. Support the joint as necessary. If it is being used as a filler/repair material, force the putty into the area to be filled and shape and remove any excess with a tool wetted with clean water.
5. After 20 to 30 minutes the putty will harden like metal and start to form a tenacious bond. After 60 minutes, the material is sufficiently cured to be drilled or sawn and it will achieve full cure after 24 hours. It can also be smoothed down with the enclosed wet and dry strip and then finished as required.

Rapid Repair Pipe Wrap Bandage

The Pipe-Wrap BANDAGE is manufactured from a fibre reinforced polyurethane flexible repair tape designed for the rapid repair of cracks and leaks. It requires no mixing, it is easy to use and repaired items can be returned to service in less than thirty minutes.

- Makes permanent repairs to:
 - Cracked or damaged pipes
 - Cracked or damaged fittings
 - Split down-water pipes
- Versatile and easy to apply
- Hundreds of different uses
- No tools are needed

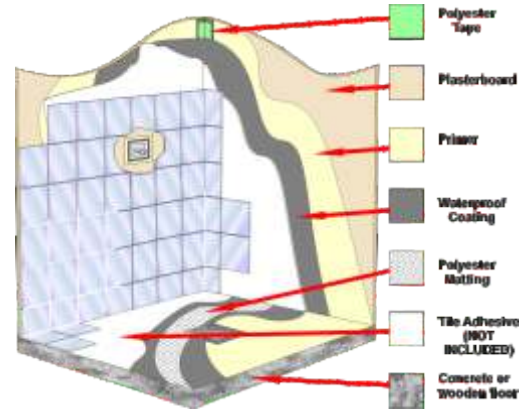

The Bandage is pre-impregnated with a high performance polyurethane resin which will adhere to PVC, GRP, concrete, glass and all metals. Activated by being immersed in water, it cures to produce a tough, chemical resistant bandage around the item being repaired. The cured material is chemically inert and is non-toxic.

POWERFUL PERMANENT BANDAGE

DampSorb Moisture Traps

DampSorb can be used in many potentially damp situations

Moisture in the air is normal, but high humidity and poor ventilation causes excess moisture. This 'damp' can cause mildew, mould, musty odour and peeling wallpaper. DampSorb is easy to use and an effective solution to this problem.

Slimline Moisture Trap

Stock Code	Package Type	Width cm	Height cm	List Price €
FTDS1	Card	26	37	7.36

Features

- Simple and Effective to Assemble.
- Can be Used in all Rooms
- No Power Supply Required
- Easy to Fill
- No-Spill Construction
- Refill Indicator
- Refills Available

Works Immediately to:

- Absorb Moisture
- Reduce Humidity Levels
- Protect Against Damp and Mildew
- Combat Musty Odours
- Improve Air Quality
