

Chimney Crow Guard

A 300 x 300 x 1000mm display box, which holds 6 Guards, is available at no cost.

Chimney Guard/Crow Guard fits all standard chimney pots. Easy to fit - there are no fixings as the Guard just "plugs" into the pot. Prevents birds entering and nesting in the pot. Available in a black painted finish.

Bird Screened Cowl

- Made from corrosion proof stainless steel
- Fits most standard chimney pot diameters
- Easy to fit with integral toggles
- Prevents bird entry
- Reduces rain ingress

Designed to fit and adjust on a conventional clay chimney pot with an 8" (200mm) internal diameter. (9" (230mm) ext. diameter).

Storm Cowl

Made from Stainless Steel, the Storm Cowl is designed to fit over an 8" (200mm) internal diameter chimney pot or extended chimney liner, the external diameter of which would normally be about 9½" (240mm). Helps to prevent the entry of debris and bird nesting materials. It is very easily fitted with snap over toggles and the skirt and dome design assists in redirecting wind movement so contributing to the prevention of down draughts.

Chimney Ventilating Cap

Using Snap-over Toggles, the cap is easily secured to the top of a masonry chimney which is no longer to be used. It is designed so that a narrow gap is left between the cap and the top of the chimney pot or liner to enable trickle ventilation of the flue which is necessary to prevent residual moisture in the stack creating damp problems. The gap is sufficiently narrow to prevent the entry of bats and small birds.

Anti-Downdraught Terminal - Terracotta Finish

- Easy to fit
- Secured with adjustable toggle clamps
- No tools required
- Lightweight
- Quiet and NO moving parts.

How it Works

In normal or still air conditions, the hot gases and smoke pass up the chimney and exit out of the top of both of the vertical tubes.

If wind drives downwards in turbulent conditions, the air moving down the tubes induces suction as it passes the horizontal tube and the hot gases and smoke exit out of the bottom of the vertical tubes.
